

**APPROVE A NEW FORM AND GUIDELINES  
FOR THE ANNUAL EVALUATION OF PRINCIPALS  
BY THE CHIEF EXECUTIVE OFFICER OR DESIGNEE**

**THE CHIEF EXECUTIVE OFFICER RECOMMENDS:**

That the Board approve a new form and guidelines for the annual evaluation of principals by the Chief Executive Officer or designee. (Attachment A) The attached form and the guidelines contained therein shall supersede any existing or previously authorized Chief Executive Officer's annual principal evaluation form and will be utilized by the Chief Executive Officer or designee beginning in the 2007-2008 school year for evaluations of a principal's performance during the prior school year.

**DESCRIPTION:** Section 5/34-8 of the Illinois School Code requires Board approval of the principal evaluation form and evaluation guidelines contained therein to be used by the Chief Executive Officer or designee in the annual performance evaluation of the principals. The School Code requires that such evaluations be based on the following factors:

- (1) student academic improvement, as defined by the school improvement plan;
- (2) student absenteeism rates at the school;
- (3) instructional leadership;
- (4) the effective implementation of programs, policies, or strategies to improve student academic achievement;
- (5) school management; and
- (6) any other factors, including, without limitation, the principal's communication skills and ability to create and maintain a student-centered learning environment, to develop opportunities for professional development, and to encourage parental involvement and community partnerships to achieve school improvement.

The Uniform Principal's Performance Contract also requires that principals be annually evaluated based upon the above factors as well as upon the principal's fulfillment of the duties outlined in the contract and such other performance factors as are mutually agreed upon by the Principal, the Board and the attendance center's local school council, in accordance with the contract.

The new annual principal evaluation form and guidelines contained therein consist of: (a) a School Performance Assessment to measure trends and performance under the principal's leadership based on objective metrics from the Board's school scorecard data; and (b) an Instructional Leadership Evaluation to assess principal competencies. Both the school scorecard data contained in the School Performance Assessment and the Instructional Leadership Evaluation do and shall in the future address the statutory and contractual evaluation factors referenced above.

Under the evaluation guidelines contained in the new Chief Executive Officer's Principal Evaluation Form:

- 1) except with respect to principals with less than three years in their principalship at an attendance center, the Chief Executive Officer or designee shall evaluate principals first by using the School Performance Assessment;
- 2) the Chief Executive Officer or designee shall further evaluate principals whose attendance centers do not meet the standard for the School Performance Assessment by then using the Instructional Leadership Evaluation;
- 3) except with respect to principals with less than three years in their principalship at an attendance center, the Chief Executive Officer or designee shall have discretion to

evaluate principals whose attendance centers meet the standard for the School Performance Assessment by then using the Instructional Leadership Evaluation, provided that the Chief Executive Officer or designee provides a specific justification for doing so; and,

- 4) the Chief Executive Officer or designee shall evaluate principals with less than three years in their principalship at an attendance center using the Instructional Leadership Evaluation.
