

Whole School Safety Planning Process Results SY2023-24

Presentation to the Board of Education

June 28, 2023

How we got here: Reminder of the 2020 Board of Education's Resolution

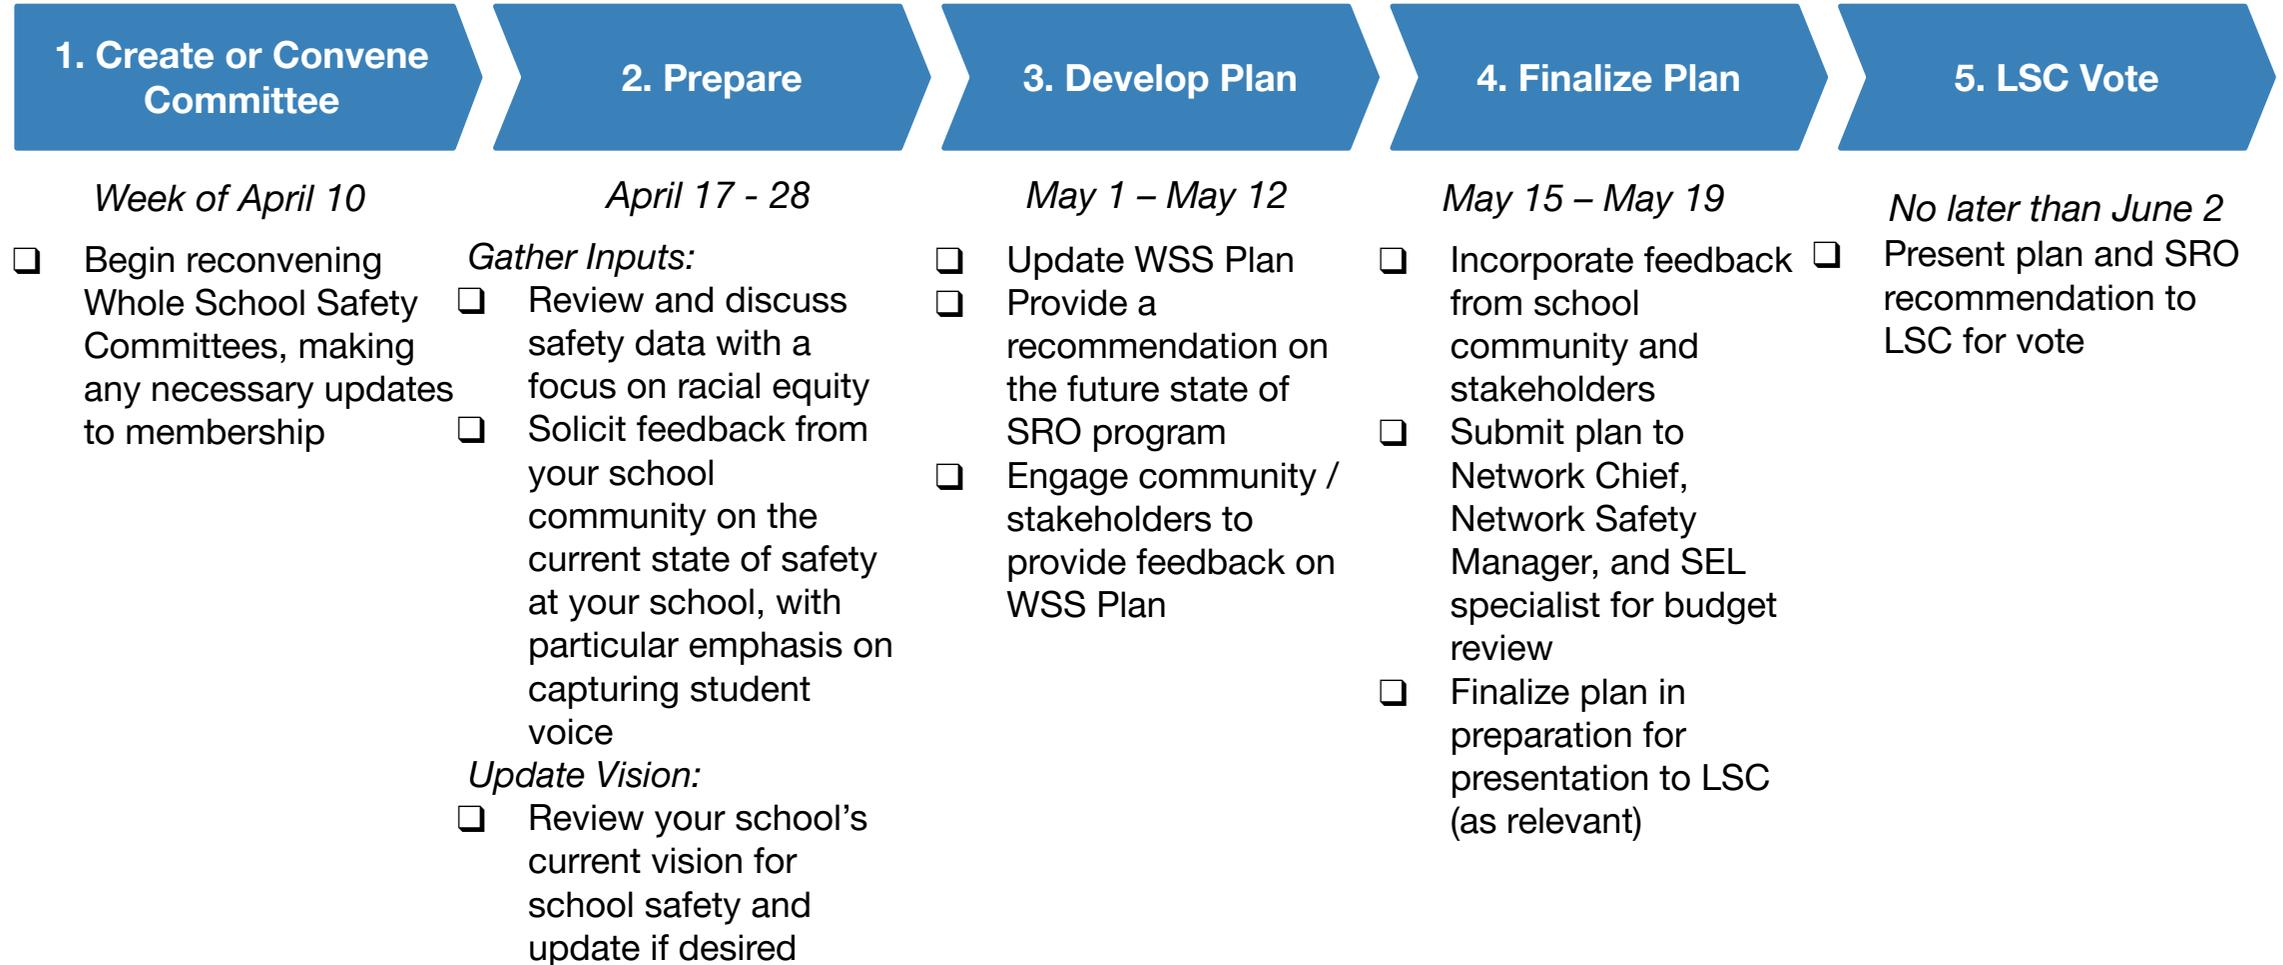

- Although CPS has historically used CPD School Resource Officers as part of its safety strategy for many of its schools, the district acknowledges that it is critical for CPS to ***review and reimagine a vision for the future of safety in schools*** that considers the further reduction or even elimination of the SRO program.
- Per the 2020 Board Resolution, the CPS Board of Education directed CPS to identify and implement ***alternatives to the SRO program***:

CPS must develop an “inclusive, thoughtful and expeditious process to develop and implement ***alternative systems of safety for CPS students*** in every school that prioritizes their physical and social-emotional well being, learning and transformation.”

This year, we reconvened the CBO SteerCo to support in engaging with schools that were going through the process.

Path Forward - School Year 2023-24

- CPS will be working with the 5 CBOs to offer a “Whole School Safety” conference in the coming months to discuss how stakeholders can get more involved.
- CPS is considering a research study for the impact of SROs on CPS schools, including a review of the impact on disciplinary outcomes
- CPS has begun conversations to pilot the Whole School Safety process in CPS elementary schools

Thank you for your continued
